

END USER LICENCE and DISCLAIMER

1. Definitions: The "Software" means the program known as 'Delux Visual Basic to Delphi Converter', 'Delux Visual Basic to C# Converter', 'Delux Visual Basic to Visual Basic.NET Converter', and 'Delux Delphi to C# Converter'. "The Suppliers" means Delux Software or its distributors and agents. "The User" means the purchaser of the software. The "SourceCode" means the source code for the "Software" provided. "Compiled" means converted into a machine readable but non-programmable form.
2. This licence allows the Software to be installed on a single computer. Copies may be made solely for the purpose of safe-keeping.
3. The Suppliers hereby disclaim any responsibility or liability for any loss or damage of any kind whatever that may result from the installation or use of the Software or the SourceCode for any purpose whatever.
4. The sole remedy available to the User shall be to return the Software to the point of purchase and assert their rights under appropriate consumer protection legislation.
5. This agreement shall not prejudice in any way the Users' rights in respect of 'fitness for use' or 'merchantability' of the Software.
6. This agreement is to be interpreted under the laws of England.
7. **Use of the SourceCode:** Where provided you may incorporate the SourceCode within software compiled applications produced by your organisation only. You may distribute such compiled applications freely. You may not distribute applications that incorporate the SourceCode that are not compiled. You may not sell or give the SourceCode to any third party. You may not reveal the SourceCode to any third party. You may not publish the SourceCode or any part of the SourceCode on the Internet or in any publication. You may not use the SourceCode to produce a software product that competes with the "Software". By competing product we mean one that performs the same function of software conversion as the "Software". You may not use the SourceCode within applications whose principal purpose is to convert programs written in one programming language into programs written in another programming language.
8. **Technical support:** Technical support for the use of the SourceCode is not provided by Delux Software.
